Managing Director

Dear friends,

Welcome to Orthodoxou Group of Companies. It is my great pleasure and privilege to introduce you to our Company Profile. After more than 30 years in business, we are proud of our many achievements, which is the result of the group's endeavor, innovation and hard work. Thanks to a combination of our talented, dependable and vastly experienced personnel and to your enduring support, we look to the future with great optimism and a willingness to succeed. Our ongoing ambition is to further establish ourselves as an outstanding group of companies in everything that we do and to continue to surpass your expectations, offering you the very best products and customer service. We look forward to our future together and the pleasure of working with you.

About us

Since the very first company of the group was founded in 1995, we have continued to grow and diversify, successfully establishing ourselves in a number of different market sectors.

Over the last 30 years, we have developed our businesses to the extent that the group is proud to have companies in a variety of business sectors, from travel and aviation to recruitment services, insurance, catering and entertainment to hotel management and online tourism.

Today, the group consists of ten companies, six in Cyprus and four abroad, geographically enhancing our position.

All companies together employ more than 250 people under the umbrella of the mother company, Orthodoxou Group of Companies.

The global nature of our group, coupled with our close relationships with our affiliate companies and associates, continues to offer our customers the highest level of personal service, wherever they are.

Our ambition is to maintain the group's growth whilst continuing to offer the competence and customer service that we have historically built our respect on.

Aim and Vision

Our aim is to continue to build on our reputation for quality in all that we do, providing our customers with the best service from start to finish. Whichever one of our businesses a customer chooses, we have a single common objective: Complete satisfaction, excellence and value.

As a group, we like to think big and aim high. We believe that success is something to be earned, through long lasting relationships, hard work and by placing the customer first. Through adhering to this vision and surpassing customer expectations, our aim is to continue to grow our position.

A History of Success

In September of 1995, Mr. Antonis Orthodoxou, a young entrepreneur decided to open a small office in Xylophagou, a small village in Larnaca, who would later go on to build the Orthodoxou Group of Companies as we know it today. Back then, Mr. Orthodoxou was a oneman band, serving a modest number of customers but with a determined vision for the company's future. Through his ambition, within two years the company had moved to new premises and was already employing three people.

By the year 2000, the business continued to expand with the opening of another office in Paralimni. Two years further down the line and a new office branch was opened in Larnaca. During the first seven years of its establishment, the group had managed to enter the market of recruitment, travel, insurance and other related services.

Well aware that the Cyprus market was relatively modest in size, a decision was taken to expand abroad and, in 2004, the group opened its first travel office in Bulgaria.

The group began to specialize in the Bulgarian Market, offering its services for a number of years, something which helped tremendously in gaining experience in overseas markets. This proved to be key in developing the many business partners and associates that the group enjoys today.

In 2006, the head office was subsequently established in Larnaca under the management of Orthodoxou Group of Companies.

This expansion continues until this day with an office in Larnaca International Airport (2008), an office in Bulgaria (Intenso, 2012), a Coffee Shop in Larnaca (2014) and an office in Greece (Proton Aviation Services, 2019).
